

31 December 2021

Funding Newsletter Issue | 7

Dear members,

In the midst of the festive holidays, we are still here keeping you updated on the latest calls that are out on a national basis. This issue is quite short and focuses only on particular requests for information from some members on the following national calls.

We are receiving a lot of requests for help on calls, in particular from start-ups that have never participated in projects and are willing to find partners to start contributing. We are strengthening our resources in the PPO in order to assist you all way through. For Gaia-X all members are the same and it will be a great satisfaction for us to see our new start-ups growing and progressing in the way they speculate.

We also wish to inform you that the calls previewed to be out in December under the Horizon Programme are delayed and the next calls under the Digital Programme are expected to be out early next spring.

Calls at National Level (International bidding)

Germany

1. Using The Possibilities of Digitization, The Telenotarzt-system (TNA-system)

Description:

Using the possibilities of digitisation, the Telenotarzt-System (TNA-System) is to be introduced as an additional rescue equipment manned by a doctor within the Free State of Bavaria. A suitable infrastructure is required for the deployment of tele-emergency doctors: the TNA system. The tendered services essentially include the development, manufacture, delivery, assembly, installation and commissioning of all TNA system components for a functional overall system including verification, validation and commissioning in the different locations of the TNA system. In addition, services for the operation and service of the TNA system must be provided beyond the time of installation (e.g., cloud service, maintenance, incident management).

Organisation: BAYERISCHES STAATSMINISTERIUM DES INNERN, FÜR SPORT UND INTEGRATION

Address: Odeonsplatz 3, 80539, Munich

Email: zentrale.vergabestelle@reg-ob.bayern.de Telephone: +49-8921760
